## Ancient Astronaut

SIGN IN TO EDIT

Thought to be responsible for the genesis and technological advancement of human society, these highly advanced aliens are capable of simulating the power of deities using technology. They are known all across the world in many different religions, and are depicted in a large quantity of mythological art, often riding flying vehicles. Speculation that they are related to the Greys has recently arisen.

THEORISTS SAY YES

There's a popular theory, known as the "ancient astronaut hypothesis," which interprets certain elements of ancient Middle and Far Eastern mythology that include artifacts as evidence of contact with extraterrestrial beings thousands of years ago. Another account was the Book of Enoch which the Jews would not allow in the Roman Bibles because it shows us that the gods of the Jews were aliens not Our Heavenly Father or Jesus.

## KEY ELEMENTS OF THE ANCIENT ASTRONAUT HYPOTHESIS RELATED TO THE MIDDLE EAST

- **Sumerian Anunnaki:** Ancient Sumerian texts describe a group of powerful deities known as the Anunnaki who are said to have come to Earth from the heavens. Proponents of the ancient astronaut theory interpret these accounts as referring to extraterrestrial beings who influenced the development of early human civilization, potentially even creating the nations of alien human hybrid nations. They point to Sumerian engravings depicting winged deities and other figures that they interpret as resembling flying spacecraft and extraterrestrials.
- 
- **Egyptian "Sky People":** Ancient Egyptian hieroglyphs and mythology include stories of "flying gods" who traveled in "celestial disks" or "flying boats." Some ancient astronaut theorists suggest these descriptions refer to alien spacecraft and extraterrestrial beings interacting with the Egyptians. Koinonia House notes that the "Winged Disk" of Ra, often depicted in Egyptian art, is interpreted by some as a representation of a UFO.
- 
- **The Nephilim:** The biblical account of the Nephilim in Genesis 6, described as giants born from the "sons of God" and human women, is sometimes linked to the Anunnaki or other extraterrestrial visitors.
- 

However, it's important to note:

- **Academic Disagreement:** The ancient astronaut theory is widely considered pseudoscience by mainstream historians, archaeologists, and scholars. They generally attribute the mythical

accounts and unusual artifacts to the beliefs and artistic expressions of the ancient cultures themselves. They will not recognize the fact that these vehicles the gods flit and flew in, the Chariots of Fire" and "Whirling Wheels" they operated in side of were UFO'S

Archaeologists have discovered huge, spiral-shaped cylindrical structures stretching over 600 meters (about 2,000 feet) straight down beneath the Great Pyramid of Giza. These massive findings, located more than 2 kilometers (1.2 miles) below the pyramid's base, hint at enormous hidden constructions deep underground.

This massive aquifer can be found 50ft down, and extends Hundreds o feet below the surface

Are we going to pretend a massive water-table located right in the middle of the studied area wouldn't have a significant impact on the interpreted results of their scan?

Why was no mention of it included in the Study?
It's a very important question that should be considered, especially for an alleged discovery of incredible historical magnitude

- **We Are Told that there is a Lack of Concrete Evidence:**
- While the ancient astronaut theory relies on interpretations of ancient texts and artifacts, the POWERS THAT BE want us to believe that there's no scientifically accepted archaeological or historical evidence to support claims of alien visitations in the

ancient Middle East or elsewhere. This seems to be because the truth is a deep dark secret only the Deep State Elite have access to. However, all you have to do is look at the pyramid structures alone to see the evidence. These megaliths were not built by people and they house high tech equipment that seems to connect to other pyramids and megalithic structures around the world on what is referred to as the grid or ley lines. THE PROOF IS IN FRONT OF OUR EYES FOR ALL TO SEE.

Many western researchers studying UFOs tend to overlook possible origin in ancient India. Even many modern day Indians did not take the texts very seriously, but woke up when the Chinese announced that they were studying this data for their space program. From the manuscripts it is not clear if interplanetary travel was ever made but there is a mention of a planned trip to the Moon. However, the Ramayana, does have a highly detailed story of a trip to the moon in a Vimana, including details of a battle on the moon with an 'Asvin'(Atlantean airship).

As per John Burrows, Sanskrit texts have references to gods who fought battles in the sky using Vimanas equipped with weapons as deadly as in current times. Indra's Dart operated using a circular reflector. When switched on, it produced a 'shaft of light' which, when focused on any target, immediately consumed it with its power (Laser Weapons).

As per Ramayana Pushpaka (the flowery Chariot) was originally made by Vishwakarma for Brahma the Hindu god of creation. Brahma gifted it to Kubera, th of wealth, but was stolen, along with Lanka, by his half-brother, the demon king R It reportedly resembled the sun, and could go everywhere at will. There are menti Lord Rama using it, and under the command of Raghira (Captain), the chariot repo rose up into the higher atmosphere. This celestial self-propelled car was large, ha stories and many chambers with windows, and was draped with flags and banners

There are references of highly maneuverable and powerful Vimanas launch single projectiles charged with 'all the power of the Universe' against cities, result huge columns of smoke and fire equivalent to tens of thousands of suns. This Iron Thunderbolt gigantic messenger of death reportedly reduced to ashes the entire r the Vrishnis and Andhakas. These kinds of records are not isolated and can be cros correlated with similar reports in other ancient civilizations. Were these nuclear weapons?

The Book of Enoch was never officially part of the Bible's canon in most Christian denominations. It was excluded from the Old Testament by Jewish scholars and later not included in the Christian Bible due to questions about its authorship, theological inconsistencies with established scriptures, and its late date of composition.

More recently, Vimanas have appeared in books, films, internet and video games. Interstellar propulsion system called 'Vimana Drive' is used in the space exploration game Noctis. Producer Etnica released film 'Vimana' in 1997 includes references to UFOs and alien life forms. Michael Scott (Irish author) wrote The Secrets of the Immortal Nicholas Flamel, a fantasy series that included flying vimanas.

- Now that we are learning what is below them it looks like these pyramids were built on platforms that you cannot seejust below the surface. In India their data shows that these pyramids were actually flying vehicles which they called Vamanas. People with simple tools back then could not have constructed these megaliths that flew and dropped high tech weapons on their enemies.

In conclusion, while ancient Middle and Far Eastern texts and imagery have been interpreted by some as suggesting that these ancient tribes experienced alien encounters, this remains a

controversial and unproven theory until today when the EVIDENCE IS OVERWHELMING. Mainstream academia, (the AshkeNAZI Zionists, Sephardic Jews, Merovingian's and their secret DEEP STATE societies do not support the idea of ancient alien visitations, because in doing so many truths would be revealed they want kept secret. So instead, they focus on the cultural and historical data about the civilizations that were worshipping these alien gods and their flying machines.
